MAYSVILLE, KY., SATURDAY MARCH 20, 1897.

NUMBER 99.

ENCROACHING WATER

The Lower Mississippi River Still Rising.

FOUR MORE PEOPLE DROWNED.

Hundreds of More Acres of Land Engulfed by the Overflowed Rivers—Desolation Is Everywhere Apparent—Work of Rescue Goes on With Unabated Zeal—No Hope for the Abatement of the Waters.

MEMPHIS, March 20.—Two negroes lost their lives yesterday as a result of the great flood which engulfs hundreds of acres of land in the Arkansas bottoms. The two men were drowned in Fifteen Mile bayou near Marion, Ark. There is no cessation in the rise of the river and the gauge now registers 37.2, a rise of one-tenth during the past 12 hours.

Cairo reports 50.4 feet, a rise of four-tenths of a foot in 24 hours. Heavy rains have continued during the past 24 hours throughout the entire region of the Ohio valley and in the territory the drainage from which swells the upper Mississippi.

At Marked Tree, Ark., on the St. Francis river, there has been a deplorable rise of one foot in the past 24 hours, deplorable not only on account of the probable disaster in that immediate section of the country, but because this river swells the great volume of water in the Mississippi, where conditions are already so distressing.

At Greenville the danger line is now passed and the rise continues.

Throughout Arkansas and Tennessee heavy rainfalls were the rule during the past 24 hours as during the preceding.

At Helena the rainfall was immense, measuring 3.65 inches.

In Memphis it was 1.86 inches with 1.24 inches at Nashville and Chattanooga.

Helena, Vicksburg and points below report a steady rise.

The first ray of sunshine in five days yesterday penetrated the gloom which hangs over the overflowed country. It seemed rather to heighten the effect of desolation which is everywhere apparent across the river in the eastern part of Arkansas. It had an appreciable effect, however, upon the spirits of the populace.

The relief fund for the flood sufferers has been materially increased by gifts from individuals and from firms outside of Memphis. This assistance is greatly needed in caring for the new arrivals which the rescue steamers bring in at every trip.

A telegram from Modoc, where the levee was reported to have broken, calls for materials for strengthening the levee at this point. The levee is intact as yet, though a break is feared. Arrangements have been made to send the necessary assistance.

The railroads are heavy sufferers from the high water. The Iron Mountain road is the only one available from the west. The Mississippi Valley road has abandoned the sale of tickets over its line on account of a washout near Lake View. The Memphis and Charleston trains have been forced to stop running for the same reason.

The work of rescue goes on with unabated zeal. The rescue boats make as many trips as possible during the day, returning from each trip laden with refugees and such household goods and cattle as they have been able to save. These are being cared for by the relief committees.

The gloomiest feature of the distressing conditions is the fact that there is little or no hope of the abatement of the high water within the near future, because of floods reported in the upper valleys.

The most alarming reports concerning the condition of the levees above and below Memphis have been in circulation in Memphis, but they have particular reference to the levees below this point and even below Helena. The levees are in most places built to extend three or four feet above the highest water mark in the locality where they are constructed. It seems now that this allowance of altitude has about been consumed by the rising water.

The United States engineering force for the districts south of this city have been doing every thing in their power to relieve the sufferers and protect the levees. The Mississippi river commission, complying with urgent requests, has transferred some \$10,000 from the fund at its disposal to be used in the protection of those districts during the high water.

There is very reliable information to the effect that at Modoc, Avenue, Hughes and other points below Helena the water has gone over the levee, and the levees being in such a mushy condition from the rains, it is not thought possible to protect them much longer from the ever rising flood. The people living behind the dikes in the localities mentioned are already flying for their lives. The hundreds of men who had been at work watching the levees have about all been taken away and their labor will be utilized in saving the lives of other people.

The government steamer Abbott has

carried a large number of sacks of sand to the Modoc locality and to points below. At that place the government has only recently spent many thousands of dollars in completing the strengthening of the levees.

There is positive information that the levee constructed under the direction of the St. Francis levee board near Caruthersville, Mo., has been cut and the belief is prevalent in that locality that the work was done by persons living on the Tennessee side who hoped by making an opening for the flood on the Arkansas side to decrease the flood and thus save the property on the Tennessee side.

A report is current of the levee having broken at Hill house, Miss., flooding the fine farms in that vicinity. A steamer with men and sand has been dispatched to the scene of the reported break.

The reported break in the levee at Glendale can not be confirmed and it is thought to be premature.

FLOODS IN THE NORTHWEST.

Every River Overflowed, Threatening Loss of Life and Destruction of Property.

OMAHA, March 20.—The flood situation in Nebraska, Iowa and South Dakota is condensed from special telegrams to The Bee as follows:

At Sioux City the flood had endangered all the bridges near the stockyards, but they were saved by the use of dynamite to blow up the ice gorges. Reports from up the Floyd river indicate that it is rising and the worst is yet to come. It is considered probable that all the bridges will go out, but there will be no lives lost as the people have been getting ready for the flood. The Sioux river is causing trouble to the Milwaukee road. The ice is breaking between there and Hawarden at several places and heavy gorges are being formed. The bridge at Riverside, across the Sioux, is in danger of going out at any moment.

At Cherokee, Ia., the Floyd river is rapidly rising, several of the houses in the lowlands are surrounded by water and the approach of the new iron bridge is gone, with good prospects that the bridge will follow.

At Mason City streams are all out of their banks and rising rapidly.

Railroads are fearing the floods. The Milwaukee road is catching it on the west end. Between Spencer and Every the Little Sioux has submerged the track and trains can run no further west. A bridge is out at Rock Valley.

At Pierce, Neb., the east and north portions of the town are flooded with water from the Elkhorn river. Yellow creek, southwest of the town, is on the rampage and is washing away the farmers' hay stacks.

At Fremont, Neb., the Platte river is still out of its banks, but no serious damage is reported.

At Yankton, S. D., melting snow and heavy rains caused a suspension of traffic on the three railroads. Between Yankton and Vermillion water covers the tracks of the Chicago, Milwaukee and St. Paul and the Great Northern roads.

The ice in the jams in the Missouri river still hold, although covered by 10 feet of water.

At Canton, S. D., the highest water known for years in the Sioux river is recorded. All the bridges are in danger and railroad traffic is at a standstill.

At Woonsocket, S. D., the water covers the track for a long distance. Washouts have cut off communication south.

All bridges on the James river are expected to be taken out soon.

At Randolph, Neb., several county bridges are washed out. The Pacific Short Line Eastern express is tied up there. The Omaha line bridge, one mile north of the town, is damaged. The water is the highest ever known. Rain is threatening again.

Two People Drowned.

WESTER CITY, Ia., March 20.—Dr. Travis of Eagle Grove and Mr. Jaeger, a farmer, were drowned yesterday while attempting to ford the Boone river, two miles west of that place. Dr. Travis was on the way to Mr. Jaeger's on a professional call, when the team was swept down stream and both men were drowned. Their bodies have not been recovered. The Boone river at this point is higher than it has been for years, the ice is going out and the waters are rapidly rising.

THREE FRIENDS SAILS FOR CUBA.

She Carries a Large Load of Dynamite, Rifles and a Few Heavy Guns.

NEW YORK, March 20.—A dispatch to The World from Tampa, Fla., says: Thirty-five Cubans left here last night for Punta Gorda, where they found the steamer Three Friends waiting for them, and they sailed for Cuba about midnight.

The revenue cutter Forward, stationed here to look out for filibusters, was ordered Wednesday to Key West to intercept the Three Friends. Thursday afternoon the Three Friends sailed into Tampa bay and rode at anchor unnoticed until night, when it put into Hillsboro bay and slowly steamed up to Tampa.

Captain Lewis, her master, had spent the day here, but left Thursday night for Punta Gorda. Word was carried from him to the boat, and it sailed away for last night's rendezvous.

The Three Friends takes a large load of ammunition, dynamite and rifles and a few heavy guns.

Two Men Arrested and One Released.

HAVANA, March 20.—Joseph Bofill, a British subject, has been arrested at Santiago de Cuba.

NO HOPE FOR THEM.

Jackson and Walling Will Be Hanged.

EVERYTHING IS NOW READY.

The Prisoners Appealed to the Court of Last Resort in Vain, but They Are as Defiant and Indifferent as Ever—No Trouble Anticipated—State Troops to Guard the Gallows.

NEWPORT, Ky., March 20.—All efforts having failed for interference with the execution of Scott Jackson and Alonzo Walling for the murder of Pearl Bryan, there is much excitement here over the coming event. Ever since the arrival of the prisoners yesterday afternoon from the jail at Alexandria the jail has been surrounded by large crowds. The crowds during the afternoon and evening were admitted into the enclosure to view the gallows.

Jackson and Walling concede that they have appealed to the court of last resort in vain and that their doom is sealed, but they are as defiant and indifferent as ever. Both of them appeared at the windows of the jail before darkness set in yesterday evening and entertained the crowd with their pranks. When the newspaper men gained access to them they were apparently in their jovial spirit. They were not at all concerned about the large crowds that surrounded the jail. The crowds were made up largely of women and children who are there from curiosity and not for violence.

At noon yesterday the two companies of militia who are to maintain order at the hanging arrived in Newport. The men were ordered to report to Sheriff Plummer and to place themselves at his disposal. He instructed the militia officers to divide their forces into two equal watches, who, with fixed bayonets surrounded the jail yard and allows no one to pass their "trocha" without a ticket signed by the sheriff. The soldiers are camped in the basement of the courthouse, rations being furnished by the county. None of the soldiers will be able to see the hanging.

The officers anticipate no trouble whatever, as there is a general feeling of satisfaction over the final action of Governor Bradley. But if there had been such interference as to have caused indefinite delay, the officers would have anticipated trouble.

Sheriff Plummer will not announce the hour of execution.

Scott Jackson's mother and Mrs. Edwin Post, his half sister, are with friends in Cincinnati. Walling's mother has gone home. None of the family of Pearl Bryan are here. They are represented, however, by friends from Green-castle, who arrived last night.

Walter Hendren of Nicholasville, Ky., the brother-in-law of Dr. Wagner, arrived last night and is stopping in Bellevue with Mrs. Dr. Wagner, his sister. He brought with him abundant records and other documentary evidence that he took Dr. Wagner to Nicholasville on Jan. 23, 1896, and kept him there at William Hendren's house till Feb. 3 of the same year, proving a perfect alibi for Dr. Wagner, who is accused in the last confessions of the murderers.

GOV. BRADLEY'S GOOD REASON.

Why He Refuses a Respite to Jackson and Walling.

FRANKFORT, Ky., March 20.—In his statement refusing to interfere in the Jackson-Walling case Governor Bradley says in part:

"The common law concerning the crime admitted in the confessions to have been committed is in force in this state. The confessions show that Pearl Bryan was killed by drugs administered to produce an abortion. If this be true, she being quick with child, as shown by the evidence, the child was killed also. Her death was caused by drugs deliberately administered, the effect of which clearly manifests an utter disregard for human life.

"These confessions, however, are inconsistent and contradictory, utterly at war with every statement that each of them made on the witness stand. It is urged that this should be overlooked, because they were then swearing for their lives. Conceding that the false statements were made to escape the danger pending, it may well be asked how much greater is the danger that is now about them when they stand in the shadow of the gallows. If they are excusable for swearing falsely then, how much more are they excusable, and how much more likely is it that they would speak falsely now.

"These men have not only trifled with human life, but have trifled with the courts, trifled with the execution and set at defiance the laws of God and man.

"If it be established that criminals, after such conduct, can, by a mere pretended confession, obtain a respite, then every other is entitled to like treatment, and this would result in frustrating justice and bringing the execution of the laws into contempt. The respite is refused."

CONFEDERATE VETERAN'S CRIME.

He Kills His Two Children and Then Shoots Himself.

ATLANTA, March 20.—A special to The Journal from Harlem tells of an awful

tragedy committed eight miles south of that place yesterday afternoon. Wright Smith, a one-legged Confederate veteran, went to Thomson yesterday morning, drew his pension and went home. He paid some debts in the neighborhood and then asked his three children to go with him to feed some hogs. For some reason his oldest, a girl of about 8, refused to go.

He carried the two youngest, both boys, aged 2 and 4 years, to a cotton-house, where he crushed their brains out with his wooden crutch and then sent a pistol ball through his own brains. An empty laudanum bottle was found near and the supposition is that he took the contents before shooting himself. No cause has been assigned for his committing the awful deed. He was not a drinking man. He was about 50 years old.

REVIEW OF TRADE.

R. G. Dun & Company's Weekly Report on the Condition of Business.

NEW YORK, March 20.—R. G. Dun & Company's weekly review of trade says: Though steadily increasing, business is still much below its volume in former years of prosperity and many express disappointment. Yet, there is some gain every week, with more hands at work and more mills in operation, and the sure result, large purchases for consumption, can not be long delayed. In some branches it is felt already; there is larger distribution of finished products and the demand for commercial loans has sharply increased, especially in dry goods and the iron and steel branches. The progress of the iron and steel industry is hindered by uncertainty regarding the cost of lake ore for the coming year, though the repeated adjournment of producers' meetings is interpreted as evidence that an agreement will be ultimately reached. It is reported that Norrie ore at \$3.75 will be taken as the basis, which would imply about \$2.35 for Mesaba ores, but, until the question has been settled, many important transactions are deferred.

While there is no great activity in finished products, the demand steadily increases. Contracts for several great buildings at Chicago are pending and for a good many bridges and other railroad works, and the demand for wire nails and for wire does not abate, nor the demand for black sheets required in tin plate manufacture. Tin tends lower at 13.35 cents, with heavy receipts and with weaker London quotations; lead is inactive at 3.37 cents, and copper is weaker, although the trifling decrease in production in this country is practically balanced by the small increase in production elsewhere.

While manufacturers of cotton goods are looking forward with much confidence, the present demand is not equal to expectations, nor has the production of print cloths accomplished the desired change in condition.

The buying of wool, mainly of a speculative character in expectation of new duties, continues remarkably large. Sales at the three chief markets for the past week were 10,891,900 pounds, and for three weeks have been 28,795,800 pounds of which 16,628,200 were domestic, whereas the largest transactions in any previous year at this season were 17,105,876 pounds, in the corresponding weeks of 1892, of which 11,886,636 were domestic. No great increase has yet appeared in the demand for goods, although a few more mills have found enough orders to start, perhaps in part anticipating a future demand. The expectation of new duties does not yet influence the goods markets as might be expected.

The demand for wheat has not given much help to speculation. Atlantic exports have been only 1,263,390 bushels, against 1,199,335, flour included, for the corresponding week last year, while western receipts have been only 1,397,346 bushels, against 2,416,089 bushels last year. Accounts regarding the coming crop have been less favorable this week, and the price has advanced 1 5-8 cents.

The exports of corn continue heavy, 4,543,705 bushels for the week and quotations advanced seven-eighths.

The cotton market has also been almost lifeless, and while the price has gained a small fraction, the narrowness of demand here and abroad, has its natural influence. Reports about the coming crops are interesting, as usual, to speculators.

Failures for the past week have been 216 in the United States against 261 last year, and 50 in Canada, against 49 last year.

Found Dead Far From Home.

PORTLAND, Or., March 20.—Last Tuesday the dead body of a man was found in the Willamette river. While lying in the morgue the body was identified as that of Walter McNaughton, who conducted a nursery in Providence. When found the body had been dead over a week. The police are puzzled as to whether the man committed suicide or was the victim of foul play. The Providence authorities have been communicated with.

Killed by Cars at Lima.

LIMA, O., March 20.—While crossing the Pennsylvania railroad tracks on his way home, P. H. Sherman, aged 50 years, was run down by an eastbound limited train and hurled about 50 feet. The train was running at full speed. His neck was broken and he was otherwise injured. The force was so great that one shoe was torn off. He leaves six children living in Paulding and Marion.

Child Killed at Play.

SHELBYVILLE, Ind., March 20.—While playing at school, 7-year-old Lula Williams was struck with a stone thrown by Dan Monfort. The child will die from concussion of the brain.

GUNBOATS CALLED OFF

Greece Orders Her Vessels Out of Cretan Waters.

HER TROOPS STILL IN CRETE.

The Government Not Likely to Recall Them, Thus Defying the Powers—Noble Response to Greece's Call to Arms Against the Turks—Latest News From the Eastern Trouble.

ATHENS, March 20.—The Greek government has decided to recall the gunboats Alpheios and Pinios from Cretan waters. The former is now coaling at Cerigo.

The cabinet was in session until 2 a. m., discussing the situation. No orders have been sent to recall her troops in Crete and it is not thought any such orders will be sent.

The Greek government has formally protested to the porte against Turkey's fortifying the Turkish side of the gulf of Artra on the ground that the act is in violation of the terms of the Berlin treaty. This incident threatens to bring about serious complication.

King George and the cabinet received telegrams from Crete yesterday assuring them that the whole Christian population of the island rejects autonomy and demands annexation. Cretan delegates have sent an address to the king begging him to resist the demand for the withdrawal of the forces under Colonel Vassos.

The Crown Prince Constantine, at the head of 4,700 troops, has started for the frontier. The scene of his departure was one of the wildest enthusiasm. The balconies and windows of residences along the line of route were crowded with ladies waving the Greek flag, and the streets were almost impassable owing to the dense and surging throngs. Cries of "Hurrah for Macedonia" rose from every throat as the troops passed along.

It is officially stated that only 1,500 out of the 66,000 army reserve men, called out, have failed to respond, thus setting at rest the stories circulated of wholesale failure to answer to the call of arms.

DEMANDS OF THE CRETANS.

Nothing but Annexation to Greece Will Satisfy Them.

CANEA, March 20.—On the invitation of the admirals four of the principal insurgent leaders at Akrotiri went on board the Italian flagship in Suda Bay yesterday. Admiral Canovaro urged them to lay down their arms. The insurgents refused to accept any solution but the annexation of Crete to Greece. The admirals asked them to reconsider their decision and offered them the means of communicating to and consulting with the insurgent leaders elsewhere; but the same reply, it is feared by the admirals, will be made by all. The Cretan chiefs, mayors and notabilities are signing an address to the Greek government and foreign admirals declaring that the Cretans' sole desire is union with Greece.

The fighting in the vicinity of Retimo and Candia continues night and day. The houses and shops of the Christians are still being pillaged.

Blockade the Signal For War.

LONDON, March 20.—The Athens correspondent of The Times, voicing the popular indignation at the news of the blockade of Crete next Sunday, thinks it highly probable that a blockade of Greece would be the signal for war. In that event neither the king nor the government would be able longer to control the insurgents on the frontier.

Germany and Austria Back Down.

LONDON, March 20.—The Vienna correspondent of The Times says an official statement confirms the belief that Germany and Austria have declined to share in the military operations by the powers in the interior of Crete on the ground that such a course would involve the powers beyond the limits originally contemplated.

TRAGEDY IN A HOTEL.

The Proprietor, Insanely Jealous, Uses His Revolver.

MONROE, La., March 20.—Patrick Paine, proprietor of the Iron Mountain hotel, yesterday shot and fatally wounded his wife and made an unsuccessful attempt to kill his little child and James McCabe, a bill collector, and was himself shot and seriously wounded by McCabe.

Paine entered the hotel office just as his wife paid McCabe a bill. He was jealous of her and, without warning fired a pistol in her face. He then shot his little daughter and turned on McCabe. Several shots were exchanged, Paine being shot twice.

Convicted of Wife Murder.

NORRISTOWN, Pa., March 20.—Charles O. Kaiser, Jr., aged 24 years, was last night convicted of murder in the first degree for the killing of his wife on Oct. 25 last. The woman was shot through the head and instantly killed while riding with her husband on a lonely road. Kaiser gave out the story that the murder had been done by highwaymen, but suspicion was directed to him by the discovery that his wife's life had been shortly before insured in his favor for about \$10,000.

Resignation Accepted.

WASHINGTON, March 20.—The president has accepted the resignation of Silas W. Lamoreaux as commissioner of the general land office.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.SUBSCRIPTION PRICES OF DAILY.
One month.....\$1 25 Three months.....\$3 00
Six months.....\$5 00 One year.....\$9 00

SATURDAY, MARCH 20 1897.

From a Republican Journal.

Vanceburg Sun: "We call the attention of the Democrats of Lewis County and of the 19th Judicial district to the announcement of James P. Harbeson for Circuit Judge of this district. Mr. Harbeson is our present Judge and no one can dispute the fact that his past record is above reproach. There is not a worthier aspirant in the Democrat party in the district for the place and we can hardly believe he will have opposition for the nomination. He has made a fair and impartial official, sustained in most all his rulings by the higher courts. While not of our faith, yet, undeniably qualified, a gentleman, and our friend, we gladly offer him our most kindly wishes for success."

The Wagners Once Lived at Dover.

Dr. Geo. B. Wagner, the Bellevue physician whom Jackson and Walling implicate in Pearl Bryan's murder, formerly resided at Dover. He was a minister then and preached for a time at the Beasley church. A lady living in this city at present was a schoolmate of Miss Maud Wagner, one of the doctor's daughters, at Dover.

BUSINESS IN THE SOUTH.

Southern Manufacturers Are Making Themselves Felt—Milling Industries Prosperous.

[Exchange.]

Mr. Frank P. Bennett, editor of the Wool and Cotton Reporter, a Boston publication, has recently made an extensive tour through the South for the purpose of inspecting the milling industries of the Carolinas and of Georgia. The reports he took back to his journal are exceedingly gratifying to people everywhere interested in the development of the New South. In the Carolinas, in spite of the hard times, he found all of the mills but one running either on full time, extra time or double time. The only one not running was but temporarily suspended because it had been sold and the new owners were making certain changes pending their beginning its operation. A similar condition he found among the Georgia mills, and the Georgia mills with those in the two Carolinas constitute more than three-fourths of the milling industries of the South.

Taking these facts, together with the other fact that milling in New England has been languishing through the great financial depression from which the country has suffered, the proof is apparent that the place for manufacturing cotton goods is generally where the raw material is produced. One conspicuous reason, ex-Gov. Bullock, of Georgia, says, for the success of the Southern mills is the fact that they manufacture only such goods as they find an immediate demand for and those goods in the South are of the coarser grades. They do not undertake the finer grades, as do the New England mills which long ago overstocked the market. It is the intention among these Southern mill owners, as soon as the demand justifies them, to begin active competition with the New England manufacturers in the finer grades of cotton.

Funeral Notice.

Members of DeKalb Lodge No. 12, I. O. O. F., are requested to meet at their hall on Sunday, March 21st, at 1 o'clock sharp to attend the funeral of Brother Jas. H. Limerick, from his residence at 2 o'clock. Our sister lodges are courteously invited.

J. H. DONSON, N. G.

Jno. W. THOMPSON, Secretary.

Members of Ringgold Lodge No. 27, I. O. O. F., are requested to meet at their hall on Sunday, March 21st, at 1 p. m. sharp to attend the funeral of Brother J. H. Limerick of DeKalb Lodge.

W. T. BERRY, N. G.

ALBERT N. HUFF, Secretary.

The Riley Will Case Settled.

The heirs of the late George Riley met yesterday and distributed the estate on the basis of the first will. Messrs. Ben Longnecker and son George were each allowed \$5,000 for services to deceased in his closing years.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. James Wood.

Attention, Farmers.

Seed oats only 25 cents a bushel, at Magnolia Mills.

JACKSON

[Special to BULLETIN.]

CINCINNATI, March 20, 1897.—(11:42)—

Jackson has paid the penalty of his crime.

The drop fell at 11:40 a. m.

THE VICTIM.

At the Last Moment Makes Another Confession.

He Exonerates Walling of the Murder of Pearl Bryan.

GOV. BRADLEY RESPITES WALLING,

And Orders Sheriff Plummer to Proceed With Jackson's Execution.

PEARL BRYAN'S MURDER AVENGED.

[Special to BULLETIN.]

CINCINNATI, O., March 20th, 1897.—(10:33 a. m.)—Jackson has made another confession.

At the last moment he exonerated Walling.

Governor Bradley was at once notified by Sheriff Plummer of the new developments in the case.

He ordered the Sheriff to proceed with the execution of Jackson, but to hold Walling for further investigation.

SCOTT JACKSON AND ALONZO M. WALLING, THE CRUEL MURDERERS OF POOR PEARL BRYAN.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung Complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgess, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal Church for fifty years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial bottles free at J. James Wood's drug store.

FIRE insurance.—W. W. Baldwin & Co.

At the Church of the Nativity to-morrow, services will be: Sunday school at 9:30 a. m., Litany, sermon and Holy Communion at 10:30, Evening Prayer at 4.

PROF. LEARY, the well-known teacher of practical book-keeping, is at St. Charles Hotel. He will get up a class of gentlemen. Ladies can be taught also.

This week 400 barrels of whisky were shipped from Paris to Bremen, Germany. Forty-five barrels were shipped from that point three weeks ago to Carson City for use of the sports at the big fight.

HAVE you heard the new song, "In the Shadow of the Pines?" It is immense! Legg Bros., of Kansas City, Mo., have it, and they are making a cut price of 25 cents a copy. Send for one.

Do you need a good clock? If so, P. J. Murphy is offering the finest clocks ever offered for the money. An elegant eight day clock either "oak" or "walnut," strikes hours and half hours, 22 inches high, only \$3.25, reduced from \$5. Warranted a good time-keeper.

PERSONAL.

—Mr. C. D. Newell, candidate for County Judge, spent yesterday in Dover.

—Miss Blanche Wilson, of Aberdeen, is visiting Miss Grace Elleberry, of Bethel, Ohio.

—Col. Richard Dawson returned Friday from a sojourn on his Missouri plantation.

—Miss Katherine Ryan, of Columbus, O., has returned home after a pleasant visit to Miss Stella Redmond.

—Mrs. Anna Dimmitt Merrill, of Clermont County, O., is the guest of her sister, Mrs. Judge M. C. Hutchins.

—Mr. E. R. Blaine arrived yesterday evening from New York, and will spend a few days here with relatives before leaving for his home in Chicago.

—Mrs. Rachel Hart has been visiting her sister, Mrs. R. C. Bland, of Mason County, this week. Mrs. Lucy Carnahan came up from Maysville Saturday to visit her mother, Mrs. Amanda Belt.—Flemingsburg Times-Democrat.

Your Intelligence.

Your intelligence is questioned by the druggist who tries to influence you to let him bottle anything for you when you ask for Dr. Bell's Pine-Tar-Honey. No druggist can put this up for you—he cannot put up anything like it—it is not to be had in bulk—it is to be had only in 25, 50, and \$1 bottles. There is nothing "just as good" as Dr. Bell's Pine-Tar-Honey. Avoid those substitutes with similar sounding names. When you buy Dr. Bell's Pine-Tar-Honey see that the bottle has never been opened and that it bears the picture and testimony of "Good Old Granny Metcalf," and the name of the E. E. Sutherland Medicine company, Fountain Park, Paducah, Ky.

Death of Mrs. J. D. Cushman.

Mrs. J. D. Cushman, one of the country's most estimable women, died Friday evening at the home of the family in Dover. One son survives her. The funeral occurs Sunday at 2 p. m. at Dover.

F. DEVINE has sold for W. H. Ball a house and two and a half lots in Clifton to John W. Tolle for \$550.

Spring Novelties.

In the lace department have just arrived. The Applique Brussels, Point Arabian, Irish Crochet, Russian Lace, Pointe Gaze are here in tempting array, in widths of 3 to 6 inches, for neck and sleeve trimmings. They are sure to please you. Then there's the new Queen Elizabeth ruff, a dainty chiffon arrangement for neck and sleeves, 50c. a yard; the new Boleros at \$1 a pair and Arabesque all over in black and white at \$1.25.

READY-MADE SKIRTS,

cut by the new method. Fine gores, narrow front, circular sides; hang beautifully, bound with best velveteen. Not many in stock. No time to lose in buying. They cost less than the material. How can we mark them so low? Bought them at a bargain; selling them the same way. Shepherd Plaid, rustle lined, velvet bound, \$3.89. Fancy figured Novelty, black, full width, \$2.50. Black Damasse Satin, five yards wide, newest patterns, \$7.50.

FRENCH ORGANDIES.

New lot; one dress pattern in each. No telling. Nothing but your eyes can convince you of the possibility of getting such charming effects out of cotton and colorings, 35c. a yard.

COLORED DRESS MATERIALS.

Our great lines of low-priced fabrics have pushed themselves into most gratifying popularity, solely on their merits. We seldom lose customers from these stocks, no matter how much "looking around" is done by them in other stores. Isn't that a tribute to the excellence of styles and justice of our prices? Here's a handful of hints: All Wool Fancy suitings, 25c.; All Wool and Silk and Wool Suitings, 50c.; fine assortment of Suitings, 30c.; hosts of styles and shadings, 75c.; splendid variety of effects, \$1.

D. HUNT & SON.

River News.

The Gate City will reach St. Louis to-morrow.

River fell half a foot here last night. No big rise is expected.

Hudson down this morning and returns to-night for Pittsburg. Bonanza for Pomeroy to-night. Stanley down Sunday.

Price 25c., 50c., and \$1 a bottle. At all druggists or sent upon receipt of price by E. E. Sutherland Medicine Co., Paducah, Ky.

For sale by Thos. J. Chenoweth, druggist.

IN OLD MEXICO.

It is a Most Interesting Country,
and Well Repays a
Visit.

The Poorer Class Live a Miserable Life, But
Seem Happy and Contented—The
Capital City—President
Diaz.

The senior proprietor of the BULLETIN had the pleasure of attending the recent meeting of the National Editorial Association at Galveston, Texas, and subsequently enjoyed a trip to the City of Mexico along with the rest of the delegates.

After leaving Galveston the next point of interest was San Antonio where we remained all day. This is the historical city of Texas, and is a thriving and progressive place. We were met at the station by Judge J. A. Buckler, formerly of Mt. Olivet, who gave his Kentucky friends a warm reception and left nothing undone to make our visit a pleasant one. We will always feel grateful to him and his most excellent wife and daughter for the cordial greeting and treatment we received during our short stay with them.

The first place of interest we visited was the Alamo, the ancient mission which is dear to the hearts of all Texans. It was in this church that its heroic defenders on March 6, 1836, made the last desperate stand in defense of liberty for Texas. Travis, Crockett and Bowie died here, with about 170 others. The old building is always open to the public and in charge of one of the veterans of the Mexican War.

Our train pulled out from San Antonio Saturday, February 20th, with nine Pullman sleepers for the long journey across the desert, a distance of 1,224 to the Mexican Capital. Sunday morning we crossed the Rio Grande river. The name sounds bigger than the river looked, as there was not a drop of water running in the stream. We arrived at the town La Ciudad Porfirio Diaz, opposite Eagle Pass, where we exchanged our American money for Mexican funds, greatly in favor of American money. We gave them a \$20 bill and in exchange received \$39, less the exchange of 5 per cent. No longer under the protection of the red, white and blue, but under the red, white and green, the flag of our sister republic which is nearly alike our own. The color, of the Mexican flag are white for religion, green for union, red for independence.

We were met at the station by a band and the Mayor of the town who made an address of welcome in Spanish. The speech was applauded just as if we understood every word he said.

The conductor shortly after called out "all aboard" and we again started on our journey through this remarkable country. In the background, the purple mountains and on the plains the adobe houses, made out of sun-burned brick, with flat roofs, dotted the valley. The natives live on a very light diet, the principal food being corn. They soften the corn and lay it on a flat stone called metate, and with another stone shaped like a rolling pin, they grind the corn to a paste. This paste is patted into thin cakes and baked on a flat stone or sheet iron plate. The poor peons are a miserable looking people and receive small wages for their labor. The pay they receive is about 35 cents per day; but after all they seemed to enjoy life. The men are dressed in white, coarse cotton and wear the broad brim sugar-loaf hat, the sombrero, made of straw. They have a blanket thrown around them which they wear winter and summer. The women are dressed in all the colors of the rainbow with a dark colored scarf or shawl thrown over their heads. They as well as the men are barefoot, or wear only sandals. This class of people are at all the stations as a "reception" committee and are begging for a centavo (one cent). There is one remarkable thing, you never see a Mexican smoking a pipe or chewing tobacco, but the cigarette is in universal use.

The faithful animal in Mexico is the burro. They weigh about 200 pounds, and usually carry more than their weight. It is a common sight to see a big Mexican riding one of these burros and his feet touching the ground. As far as your eye can reach you will see a train of these small beasts loaded with hay, fodder and wood and other products.

Mexico has a population of over 12,000,000, with a foreign population of 100,000. Foreigners do most of the banking and railroading.

As we near the large cities we see the roads are alive with natives carrying their packs of vegetables, fruits, fowls, wood, hay and flowers to market. Rising early in the morning our party went to the great market. No one should fail to visit the market places of Mexico, as they miss half the fun of the trip. Everything imaginable, from a pepper to a pig,

is on sale; turkeys, beans, brooms, nuts, fruits, sandals and almost anything you can think of is for sale or trade. The market place always presents a lively scene and one worth seeing.

The valley in which the city of Mexico sets is 8,000 feet about the sea level, and is surrounded by sublime mountains several thousand feet higher. The city has a population of 400,000, of whom 60,000 are foreigners, including over 8,000 Americans. The French population is the largest. The great drawback to the city has been the want of drainage and sewerage. They have been working on a tunnel for fifty years which is to drain the city into the Gulf of Mexico. This tunnel has already been bored seventy-five miles through the solid rock of the mountains and they expect to complete it in a few years more. It has cost millions upon millions already. All of the principal streets are lighted with gas and electricity. The streets are wide and well paved; abundant water supply brought in by the aqueducts and from 600 artesian wells. The city is well laid out, with straight streets crossing each other at right angles, and has a splendid system of street railways. The houses are built of heavy masonry, the roofs and floors of brick and cement. Each building includes one or more open court yards or "patios" in which are flowers, palms and fountains. The entrance of each house from the street is by a single arched gateway which is closed at night and attended by a guard, who is held responsible for the entries and exits. We should judge that fire insurance companies would have little business in Mexico.

In the dwellings of more than one story the upper floor is preferred as a residence and commands a high rent. The ground below is occupied for business purposes, such as work-shops and stores. There are many large business houses that are doing a fine trade.

There are upward of 130 churches in the city, the principal one in size and grandeur being the Cathedral, which is 426 feet long and 200 feet wide, with two towers 200 feet high. The great bell in the west tower cost \$10,000. This building was begun in 1573 and finished in 1607. Its cost was nearly \$2,000,000, a sum that would represent a much greater value in modern times. A balustrade surrounds the choir of metal so rich that an offer to replace it with one of solid silver was refused. It weighs twenty-seven tons and came from China in early days.

President Diaz gave a reception to the delegates of the association. His palace occupies an entire square fronting about 700 feet on the plaza, and is the largest building in Mexico. The halls of the ambassadors are in a magnificent room running nearly half the length of the front. Among other pictures, one of Geo. Washington is conspicuous. The reception room was crowded on this occasion and we were introduced to President Diaz by the Secretary of the American Legation. The President made a short speech, giving us a warm welcome to Mexico and expressing most cordial feeling towards the United States.

Mexico has an army of about 30,000 men and 3,000 officers. The cavalry consists of 2,000, the finest body of horsemen in the world.

President Diaz was born in 1830, his ancestors being Spaniards. He was educated for the priesthood. In 1847 he volunteered to fight the invading foe under General Scott. He became President in 1877 and has served in that capacity ever since.

Mexico is well policed, the offices being uniformly courteous and accommodating. The business houses and offices open about 8 or 9 o'clock, and the custom of closing stores from 12 to 3 o'clock p. m. is observed. The people enjoy themselves more and get more out of life than the people do in this country. They like Americans, and look to this country as their natural protectors from foreign aggression. A person will see more in the city of Mexico than they will in all of Europe. My advice to all Americans is to take a trip to this wonderful country. The accommodations on all the railroads are first-class, and they are better protected in Mexico than when traveling in America. At every station one finds a policeman and soldiers on duty to protect strangers and visitors.

A Remarkable Record.

General Manager Stevens, of the Chesapeake and Ohio, has submitted to President Ingalls a report of the movement of passenger trains Nos. 1, 2, 3 and 4 over the road for the year 1896. These four trains are through trains, and the report shows that during the year they arrived at terminals on time 1,378 times out of a possible 1,464 times, or, in other words, these trains were on time at terminals 94 per cent. of the times they went over the road.

During the month of April only one of these trains was late reaching terminals, and that train only once, making the record for April 99 per cent. The June record was not far behind, being 98 per cent.

Cooking stoves and ranges cheaper than ever. Wm. Power.

ROYAL BAKING POWDER Absolutely Pure.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.
ROYAL BAKING POWDER CO., NEW YORK.

COMMERCIAL TOURISTS.

New Officers Chosen by Maysville Council
Last Night—On the Road.

Geo. F. Brown, J. T. Kackley were in Ohio this week. J. B. Russell was in Fleming and J. L. Nicholson in Lewis.

Monday, March 22nd, court day, Flemingsburg. The usual number of our C. T.'s will attend.

Farmer (at door of country hotel to porter)—Who are those respectfully dressed men with those funny looking valises going in and out?

Porter—Them's commercial gents. Farmer—What, may I ask, are their peculiarities?

Porter—Well, sir, they never leaves the hotel without tipping the porter.

THE TYPICAL DRUMMER.

The drummer, bless his jolly face,
Has goodly right to fame,
No matter what his creed or race
He glories in the name.

He's open hearted, brave and kind,
And loves a noble deed;
And him ill luck will always find
A friend in time of need.

In every land beneath the sky
He's cosmopolitan,
A brother of that broader tie
That binds man to man.

He'll pledge with you, and jest with you,
And fight—if need there be;
But should he get the best of you,
A generous foe is he.

He works alike in sun or rain,
Yet thinketh not of praise;
You meet him on the morning train,
In trade's o'er crowded ways.

Oh! he is versed in all the tricks
That travel on the road;
Of science, love and politics,
The drummer knows the code.

His standard to the breeze unfurled,
Floats o'er the distant isle;
He moves the Commerce of the world
And backs in beauty's smiles.

—Robert Rexdale.

Maysville council elected the following officers last night for ensuing term:

Sr. Counselor—T. M. Russell.
Jr. Counselor—J. B. Russell.
Past Counselor—J. L. Nicholson.
Secretary-Treasurer—Geo. F. Brown.
Conductor—J. C. Kackley.
Page—E. M. Brown.
Sentinel—J. J. Fitzgerald.
Executive Committee—For two years, C. D. Russell, J. P. Wallace; one year, J. H. Russell, J. D. Muse.

JAMES LIMERICK.

Death of the Superintendent of the Electric
Railway Friday Afternoon After a
Lingering Illness.

Mr. James Limerick died Friday afternoon about 4 o'clock at his home on Second street, Sixth ward, after a lingering illness, of consumption.

He was born near Maysville, and was forty years of age last November. His wife and three children survive him.

Deceased had been Mechanical Superintendent of the electric railway for years and was a hard working, industrious and upright citizen.

The funeral occurs Sunday at 2 p. m. at the residence, with services by Rev. J. S. Sims. Deceased was a member of DeKalb Lodge I. O. O. F., and of the P. O. S. of A., and will be buried with the honors of these orders.

P. O. S. A. Notice.

All members of Washington Camp No. 3, P. O. S. A., are requested to meet at their hall to-night at 7 o'clock, to make arrangements to attend the funeral of our deceased brother, James Limerick. By order of the President.

W. R. RUDY, R. S.

FRED WILLIAMS, Pres.

An Old Violin.

Lovers of music will be interested in knowing that a gentleman of this county in the possession of a violin made in 1721 by Antonio Stradivarius.

street, adjoining Zweigart's Block. D. HENCH-
INGER. 15-1f

HEALTH IN MARCH, APRIL, MAY!

Use the Only Spring Remedy in the World That Has Stood Every Test of Time.

PAINÉ'S CELERY COMPOUND MAKES ONE WELL.

In March, April and May use Paine's Celery Compound.

And only Paine's Celery Compound! For it is nature's remedy.

Do not for a moment confound it with any of the ignorant, catchpenny, short-lived patent remedies—sarsaparillas, nervines and tonics that bear as much resemblance to Paine's Celery Compound as the parasite vines do to the oak that they live on.

Paine's Celery Compound cures disease. It makes people well. It has saved the lives of thousands of sufferers. It makes the weak strong.

It purifies the blood and enriches the nerves.

Every condition of winter life has been detrimental to health. There has been a steady decline in nervous vigor. Now that spring comes the body is ready to cast off unhealthy tissues if it is only given a chance. This opportunity comes when the excretory organs, kidneys, skin and bowels are made to work actively and the nerves are able to furnish sufficient energy to the digestive organs.

No remedy in the world accomplishes

these results like Paine's Celery Compound. It nourishes, regulates and invigorates the entire nervous system from the brain to the minutest nerve filament. It causes an increased appetite and tones up the stomach to deal with the increased food. Its nourishing action is immediately manifest in a clearing up of the muddy, unhealthy skin, an increase in weight and more refreshing sleep.

First discovered after laborious, scientific research by the ablest physician America has produced, Prof. Edward E. Phelps, M. D., L. L. D., of Dartmouth College, it is prescribed and publicly endorsed by the best practitioners in every city of America. It has been so enthusiastically recommended by grateful men and women in every walk of life that it is to-day in every sense the most popular remedy the world ever knew.

It has proven itself the greatest of all spring medicines.

In New York, Chicago, Philadelphia, Boston, St. Louis and two or three other large cities, the leading newspapers making their own canvasses again this year, have found that the demand for Paine's

Celery Compound surpasses that of all other remedies together!

Paine's Celery Compound, taken during the early spring days, has even more than its usual remarkable efficacy in making people well. It makes short work of disease. It rapidly drives out neuralgia, sleeplessness, dyspepsia and rheumatism from the system. It removes that lassitude, or "tired feeling," which betokens weakened nerves and poor blood.

Women working in close offices, saleswomen tired out and nervous from long hours' standing on their feet and waiting on impatient, irritating customers; overworked, worried and disheartened men and women everywhere will be astonished to find how much happier life becomes when their nerves have been strengthened and their blood purified by means of this great remedy.

No other remedy has the hearty approval of a like body of educated men and women and professional men, nor has there ever been a remedy that was welcomed in so many intelligent, prudent homes where pains is taken to get

only the best in so vital a matter. In such families all over the country Paine's Celery Compound is the first, last and only remedy used.

Prof. Phelps had studied the nerves in health and disease, when well nourished and when under-nourished, in men and women and children years before he looked for the remedy. Paine's Celery Compound is the outcome of his entire professional life. It is the one remedy that the world could not lose to-day at any price.

Paine's Celery Compound induces the body to take on solid flesh.

Physicians recognize Paine's Celery Compound as the one scientific spring remedy, and it is universally prescribed by them wherever there is great need of a vigorous and prompt restoring of health and strength to the worn-out system.

Paine's Celery Compound is the best spring remedy because it is more than a mere spring remedy. It brings about a healthy appetite, complete digestion, regular action of the bowels and the other excretory organs whenever taken,

whether in summer or in winter, but as the greatest of spring remedies it has extraordinary opportunities for inducing the body to throw off morbid humors that poison it and cause rheumatism, neuralgia, heart trouble and a general low state of the health, as in spring the system is more pliable and chronic diseases so securely lodged in the system that they are with difficulty ousted, become more tractable.

Thousands of men and women have found from personal experience that Paine's Celery Compound makes people well, and keeps all from sickness who take it in the spring.

Many a father and mother have noticed the unmistakable improvement in the health of their children from taking Paine's Celery Compound in the spring. It is the one scientifically accurate remedy fitted by its composition to thoroughly purify the blood and dispel that exhausted feeling and get rid of skin diseases, headaches and fits of depression with which children with weak, nervous systems, as well as grown people, are afflicted.

'RAH! 'RAH! 'RAH!

For the "Reds," "Reds," "Reds!" They're Right in it and Propose to Keep There.

The "Blue Jay" bobs up on the streets A sassin' every man he meets— Wait till the "Red bird" turns his trick— He'll make him "dust" and cry "Blue Lick."

Ole Br'er Kackley, he kilm a tree An stuck his nose in fur to see, But a "Red bird" coteh 'im by the snout An he hollowed fur a "Jay bird" to pull him out.

Ornithologists predict that the tribe of "Jay birds" in Maysville will soon become extinct.

The "Blue Jays," a lively breed of birds and frequently denominated the "Pirates of the Woods," have undertaken to locate their nests in the Young Men's Christian Association. At this season of the year the "Blue Jays" may be observed, singly and in pairs, every day in the week except "Friday," on which day they are supposed to absent themselves from the haunts of civilized people, and retire to regions where sulphur is said to abound, returning on Saturday enlarded with brimstone and screaming "Blue Lick," "Blue Lick."

At the men's rally Sunday afternoon at 3 o'clock, two or three of the directors will speak briefly, and an interesting service is promised. An account of the Moody meetings will probably be given by one or two speakers. All men cordially invited.

The "Reds" are still in the lead and propose to keep there. Last night the score stood 10 to 3 in favor of "The Reds."

We are informed that the Ledger did not "set itself up" as the champion of "The Blues," but was selected by them as their champion. It is not our intention to place any one in a wrong light. This is simply a friendly contest, and neither side proposes to have any ill feeling.

Maysville's Fourth of July Celebration. Maysville will have the greatest Fourth of July celebration and races this year it ever had in its known history. It will be held on the Maysville Fair Grounds on July 3rd, 1897, as the 4th comes on Sunday. The program will be one of the grandest ever gotten up, the special attractions will be wonderful, and in connection with this there will be an elevated stage erected, in front of the large grand stand, for some of America's finest vaudeville stars and novelties, which will be mentioned in the future. The trotting and running races will be one of the leading features of the day. The special attractions and vaudeville stars, and the purses on the races, will be mentioned through the columns of this paper in routine as they will appear on that day, July 3rd. The purses on the races will be first to appear about April 7th, as this will be the first attraction mentioned.

PROF. CHAS. LITTLE, Secretary.

MEALS will be served at all hours at Roper's New Era.

MR. JAMES SHACKLEFORD was able to be out on the street Thursday and is improving.

Mrs. JAMES HARDING, an old resident of Aberdeen, died this week after a short illness.

MR. GEORGE BROWN, late of the Fifth ward, has taken up his residence in Aberdeen.

JAMES SANFORD, formerly of Fleming County, died this week at the Lexington asylum.

C. R. LAWELL, of Manchester, had a slight stroke of paralysis a few days ago, but is able to still be about.

VOL. PIPER, a nephew of Mr. William McClelland of this county, was seriously injured one day this week in a wreck on the Missouri Pacific, at some point in Kansas.

THERE will be services in the First Presbyterian Church to-morrow morning and evening at the usual hours, conducted by the pastor. Mission S. S. in German Church at half past two o'clock. Westminster Society of Christian Endeavor at a quarter past six o'clock.

A DISTINCTION without a difference amounts to nothing. There is a difference—a real difference—a vast difference between Dr. Bell's Pine Tar Honey and any other cough, cold or lung remedy. To see it or taste it proves this immediately, but the greatest difference is to be found in the results coming from its use. Besides cutting the phlegm and curing the cough or cold at once, it soothes the irritation—cleans the lungs and bronchials. It fortifies the system against cold from the use of which no evil after effects can arise. For sale by Thos. J. Chenoweth, druggist.

Health and strength carry us through dangers and makes us safe in the presence of perils. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, the only way to get rid of them is to kill them. That is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of the secretions of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

AWAITING THE CUBAN POLICY.

The Administration Must Soon Make an Important Decision.

WASHINGTON, March 20.—What action the secretary of the treasury will take with regard to the request of the captain of the Dauntless for clearance from the port of Jacksonville, Fla., giving a port in Cuba as her destination, has not yet been determined. The opinion of the attorney general was requested as to the granting of the request of the Dauntless, and his reply has been received. It is not, however, an opinion. It reviews briefly the status of the Dauntless and calls attention to the action which her captain recently brought against the government.

The attorney general, upon the request of the president or the head of a department, gives his opinion upon questions of law, but he does not advise as to what action should be taken where the matter is not a question of law and clearly within the discretion of the officer seeking the opinion. The application of the Dauntless is regarded as a case in point. The secretary of the treasury, it is stated, has the undoubted right to give her clearance or withhold it, if within his opinion the required oath as to destination and her intention not to violate our neutrality laws is not given in good faith. It seems certain that the policy of the administration will enforce rigidly the law against filibustering expeditions, but whether the government will go further than that remains to be seen.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

RACE WAR THREATENED.

Negro Attempts to Assassinate a Section Foreman in Arkansas.

TEXARKANA, Ark., March 20.—At Index, on the Texas and Fort Smith road in Texas, 10 miles north of here, a negro attempted to assassinate Section Foreman George E. Worley, a white man, by shooting at him twice with a Winchester from behind, inflicting only flesh wounds.

Very bitter feeling has existed between the whites and blacks in that vicinity for some time. The negroes are arming themselves and getting together with the avowed purpose of protecting the would-be assassin from arrest. The whites there are greatly alarmed and sent a telegram to this place for assistance. A posse has left for the scene of trouble.

Hoeflich's Cash Bargains.
